

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

I consider my cell phone a lifeline in case of an emergency. I doesn't get used for daily chit chat. I can't afford to spend hundreds of dollars a year for this lifeline. THERE ARE MANY PEOPLE LIKE ME WHO HAVE SOUGHT THIS LOW COST SOLUTION TO STILL HAVING THAT LIFELINE. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I BEG YOU TO BE FAIR!!!!!!Keep the USF Fair!

Sincerely,

Debbie Kramer
